MAGMAWELD ID 500 M PULSE SMART MIG WELDER

Magmaweld manufacture heavy duty MIG welding machines in the range from 200 to 500 amp capacity. Their range includes both compact and separate wire feed models with either air or water cooled torches. They also produce both single and three phase TIG welding inverters in 160 to 300 amp capacity. All models are finished to a very high standard with the majority of components manufactured in house, allowing Magmaweld to offer optimum support and continuity of supply.

FEATURES

- MIG/MAG welding
- Latest inverter technology
- Pulse functionality
- 3 operation modes; Synergic, Classic or Smart
- Ability to save welding parameter presets
- Separate wire feed with 4 roll drive
- 50 - 500 amps range
- Air cooled torch
- Wheel mounted
- Heavy duty construction
- Ready to weld package

TECHNICAL INFORMATION

MODEL		ID 500 M Smart
Power Supply		3PH 400V 50Hz
Input Power at 40%	kVA	32.7
Welding Current Range	Amp	50 - 500
Duty Cycle 40% (at 40ºC)	Amp	500
Length	mm	1170
Width	mm	528
Height	mm	1348
Weight	kg	104
