

STERLING SVR500 VERTICAL BAND SAW 415V

The Sterling SVR range of vertical bandsaws consists of four models of varying throat capacities. All models are equipped with a blade shear, blade welder and grinder as standard equipment. The blade width can be as narrow as 3mm, which is ideally suited to producing curved shapes or as large as 16mm, which together with the optional adjustable fence is perfect for straight cutting. All models feature stepless variable blade speed making them suitable for cutting many different material types.
