

ALMI AL150 TUBE NOTCHING MACHINE 240V

The renowned Almi belt driven pipe notching machines achieve a superior notch finish due to the greater accuracy of the roller and belt notching method. A wide range of rollers are available which can be purchased separately, ensuring flexibility of future tube sizes that may arise. These machines are also equipped with a finishing station.

FEATURES

- Cost effective notching solution.
- Accurate.
- Saves welding and finishing time.
- Notches aluminium, mild steel and stainless steel.
- Ideal for boat building, hand rails, specialised vehicle frames, food process industry etc, etc.
- Superior finished end product resulting in satisfied customers.
