

MEYER 150X 6" HIGH SPEED BELT GRINDER

The metal removal rate of the Meyer belt grinding machines is phenomenal with a grinding power over fifteen times traditional stone grinders. These powerful machines can radius heavy plate and bar in one operation, avoiding the need to crop or burn the required profile prior to dressing. A 50mm radius in 12mm steel plate is achieved in ten seconds. They have an endless variety of applications for Fabricators, Blacksmiths and many others in the metalworking industry.

FEATURES

- Brake motor
- Extremely powerful grinding performance
- Highly rigid construction
- Quick change belt system
- Adjustable working height
- Available in 3" and 6" belt widths
- Eye protection
- Emergency stop button
- Double extraction system with dust collection bag

TECHNICAL INFORMATION

MODEL		150X
Motor	kW	3.6
Belt Speed	m/s	30
Belt Size	mm	150 x 2000
Length	mm	1025
Width	mm	600
Height	mm	1000
Weight	kg	115
