

MAGMAWELD ID 400 MW PULSE SMART MIG WELDER

Magmaweld manufacture heavy duty MIG welding machines in the range from 200 to 500 amp capacity. Their range includes both compact and separate wire feed models with either air or water cooled torches. They also produce both single and three phase TIG welding inverters in 160 to 300 amp capacity. All models are finished to a very high standard with the majority of components manufactured in house, allowing Magmaweld to offer optimum support and continuity of supply.

FEATURES

- MIG/MAG welding
- Latest inverter technology
- Pulse functionality
- 3 operation modes; Synergic, Classic or Smart
- Ability to save welding parameter presets
- Integrated wire feed with 4 roll drive
- 50 - 400 amps range
- Water cooled torch
- Wheel mounted
- Heavy duty construction
- Ready to weld package

TECHNICAL INFORMATION

MODEL	ID 400 MW Smart	
Power Supply	3PH 400V 50Hz	
Input Power at 40%	kVA	22.6
Welding Current Range	Amp	50 - 400
Duty Cycle 45% (at 40°C)	Amp	400
Length	mm	1170
Width	mm	528
Height	mm	1348
Weight	kg	114
