MORGAN RUSHWORTH RTS 60 TUBE BENDING MACHINE 415V

Pictured with optional variable bending speed

The Morgan Rushworth range of rotary tube bending machines have been designed for high quality bending of both metric and imperial tube sizes with a wall thickness sufficient to bend without a mandrel. Tooling can be supplied any tube diameter within the capacity of the machine and in a variety of centre line radii. Three models are available with tube bending capacities of up to 60mm, 76mm and 101.6mm diameter, based on mild steel tube.
