

MORGAN RUSHWORTH XL 6020.40000 FIBRE LASER CUTTING MACHINE

The Morgan Rushworth XL range of fibre lasers are equipped with a 3m x 1.5m up to a 6.5m x 2.5m cutting area with automatic shuttle table with dual pallet changer, enabling parts to be safely loaded and unloaded whilst the machine is still cutting. Class leading components ensure superior cut quality, high reliability and reduced down time.

The range covers from 1.5kW up to 40kW with the Yaskawa motors and drives for the X & Y axis and a rigid gantry and frame structure, resulting in fast acceleration, fast positioning speeds and fast cutting times. The mNEST control includes software for drawing parts or importing DXF files.
