MORGAN RUSHWORTH HSPD 95 HYDRAULIC DOUBLE PUNCHING MACHINE

The Morgan Rushworth hydraulic punching machines are available in models from 70 tonne up to 175 tonne capacity. All double punch models are equipped with a 625mm deep throat one end and a 305mm the other as standard configuration. The heavy-duty support table with adjustable backstop, universal die holder for the punching of plate, flat bar, angle iron and flange of channel and beam are all included in the standard execution. The punching machines are also available in single-ended configuration. The standard machine allows punching of up to 57mm diameter without additional equipment. The front section of the support table can be removed in order to punch angle-iron leg down. A wide range of options are available including bar bending, sheet bending and corner notching.
