

## VANTERM KTM-1500 DUST & FUME EXTRACTION TABLE 415V

The Vanterm KTM Dust and Fume Extraction Tables are suitable for grinding and welding applications, with both down draught and rear extraction. These models feature a fully integrated extraction system, filter units and easy access dust drawers and just need connecting to a power and air supply to be ready for use. A selection of lengths are available and all models feature swing away side doors to allow processing of longer material. A long filter life of up to 10,000 hours make these benches a cost effective and efficient solution.

## **FEATURES**

- o Down draught extraction
- Rear extraction
- o Adjustable balance between down and rear extraction
- Integrated spark arrester
- Washable aluminium pre-filter
- o Long life filter units for up to 10,000 hours use
- o Easy access dust drawers
- o Ergonomic table height
- o Metal slatted table surface
- o Swing away side doors for longer components
- Overhead lighting

## **TECHNICAL INFORMATION**

Model		KTM-1500
Table Width	mm	1500
Table Depth	mm	886
Air Flow Capacity	m3/h	3600
Filter Surface	m2	2 x 10
Mesh Pre-Filters	No.	2
Dust Drawer Capacity	litre	20
Sound Level	dB(A)	<70
Motor Power	kW	3.0
Length	mm	1500
Width	mm	1220
Height	mm	1650
Weight	kg	510
